

LIMITLESS

A Guide to

TRUE PHILANTHROPY

THE DIVINE PATH OF
LEADERSHIP &
HUMANITARIANISM

MISSIONLIMITLESS.ORG

FOUNDATIONAL PRINCIPLES

The 4 foundational principles of true Philanthropy are:

-Giving/Service to the Whole

-Receiving/Gratitude

-Equal Energy
Exchange/Discernment

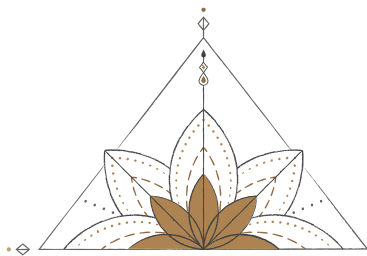

-Leadership/Living as an Example

GIVING IN SERVICE TO THE WHOLE

7 DIVINE TRAITS OF GIVING & SERVICE:

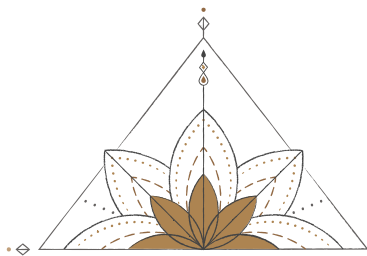

- DIVINE WILL
- TRUST
- UNIVERSAL LOVE
- DIVINE PERSPECTIVE
- FORGIVENESS
- JOY
- GRACE
- SELFLESSNESS
- PASSION

GIVING FROM THE HEART

Giving from the heart means that we give out of the purity of unconditional love. We do not give in expectation of receiving, we do not give with conditions or control, and we do not give for validation or reverence.

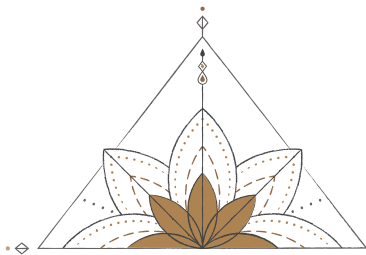

We give from a place of trust and forgiveness, knowing that all of humanity deserves love, healing and blessings.

SERVICE TO THE WHOLE

We are all contracted to use our Philanthropy for service to the whole and for the highest good of all. Service is our passion, and service must be our foundation for our missions and our vision.

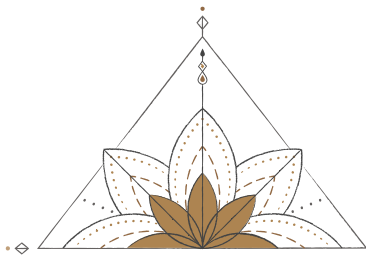

When we create from the foundation of service to the highest good of all, we create grandness. When we are in service only to self, we create destruction.

VESSELS OF DIVINE WILL

We are all vessels of Divine Will to manifest through us, as we each bring a unique piece in service to the whole.

Through intuition and divine perception, we are able to follow the Divine Will manifesting through us. This requires us to surrender to our divine purpose, to allow our inner truth to be revealed, and to hold forgiveness and grace for all of humanity.

TRANSITIONING OUT OF GREED

Our role as divine philanthropists,
is to assist with the transition out
of greed and into true service.

The old energies of greed have led
to mass amounts of wealth being
stolen and hoarded on our Planet,
which has taken away the true
energy of giving.

True service brings joy.

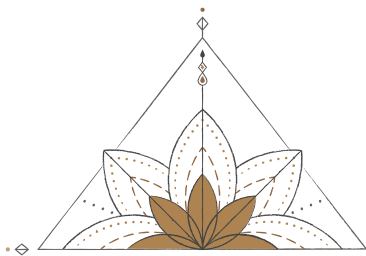

THE END OF SERVICE TO SELF

We are transitioning out of a Paradigm that promoted only service to self. One does not need to sacrifice themselves or to sacrifice their own comfort and joy in order to serve the whole, as they are one and the same.

We are now entering the service to the ALL, which includes self-love as well as service to others.

This paradigm naturally creates the energy of giving on the Planet.

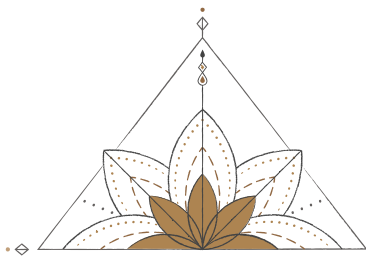

GIVING=LOVE IN ACTION

In the old paradigm many embodied the "fake philanthropy" energy.

They gave for the sole reason of appearing philanthropic, so that they could receive validation and honor, yet. their intent was not aligned with the true energy of giving.

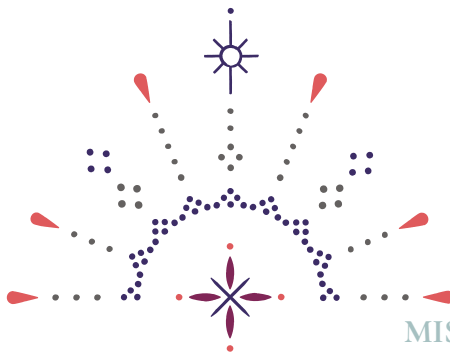

The true energy of giving=love in action. We give from the heart because we are LOVE, not for any external reasons or rewards.

RECEIVING WITH GRATITUDE

DIVINE TRAITS OF RECEIVING:

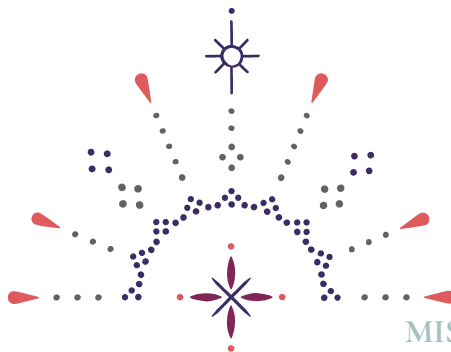

- RECEPTIVITY
- HUMILITY
- GRATITUDE
- WORTHINESS
- NURTURING
- CONSISTENCY
- KINDNESS
- FULL FEELING
- GRACE

SELF-LOVE MASTERY

In order to receive anything, including abundance, our sacred roles, or blessings, we must be in a space of self-love. When we are lacking in selflove, still holding onto lower programming, thoughts and emotions, we create a barrier to our receiving.

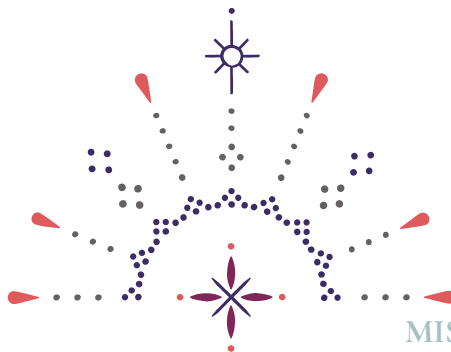

Self-love is the gate which opens to receiving all.

HONOR & CARE

One who has self-love honors themselves in all of their states, feelings and experiences. We also honor all others in their feelings and experiences. We care and nurture ourselves and all others, accepting, embracing and allowing.

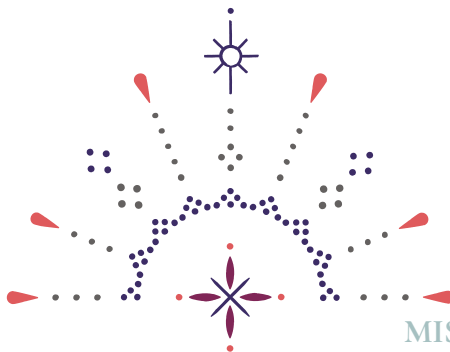

When we are in the pure state of receptivity, all things flow to us and through us. Self-love disciplines and honoring of the self is essential in order to receive.

GRATITUDE

Gratitude is the core ingredient of being able to receive. Source is always giving, always loving, always expanding.

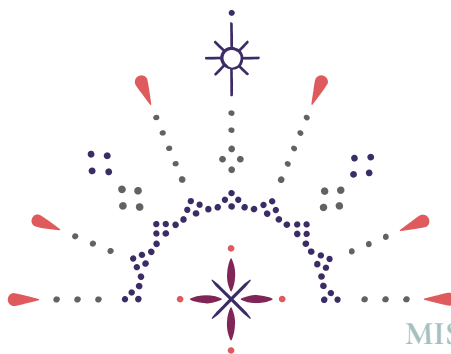

Creation is never stagnant or repressive. When we practice gratitude as our art form, we hold all things sacred, we are grateful for all experiences, all blessings, and we then become a divine conduit to receive more, and in turn, give more.

TRANSITION OUT OF GUILT

The old paradigm was built on guilt and obligation. We often received through these frequencies if we did not feel worthy, did not feel we "earned" something, or the one giving felt obligated to do so.

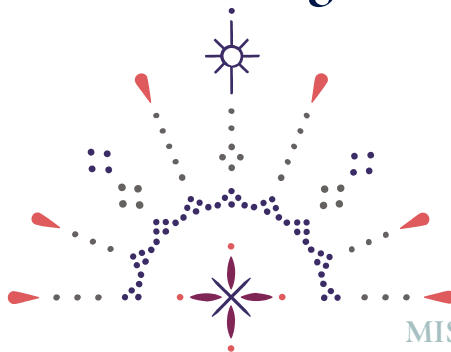

This created blocks to receiving within the collective. We are now transitioning out of guilt and into gratitude for the blessings of love.

THE END OF ENTITLEMENT

We are transitioning out of the energies of entitlement, which made us feel entitled to things without understanding that our vibration was not a match to what we were seeking.

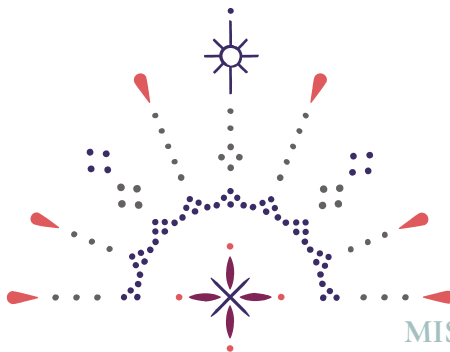

The new paradigm of worthiness holds that we first embody that which we are seeking, we are a perfect match to what we wish to create or manifest. Without BEing a vibrational match, we become entitled which blocks receiving.

WORTHINESS

All of humanity is worthy of all that love is. Worthiness is a key element of our self-love, as we must know our worth without arrogance, and instead we are now humble and with humility of our blessings.

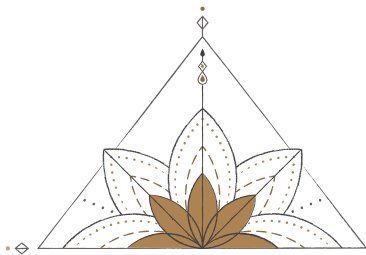

The true currency is the spirit of the Human being, as a divine fractal of Source, we are each the true currency. We are leading a transition into the beauty of BEing rather than DOing.

EQUAL ENERGY EXCHANGE

DIVINE TRAITS OF EQUAL ENERGY:

- DISCERNMENT
- DIVINE PERCEPTION
- NON ATTACHED
- HEART CENTERED
- DIVINE INTELLIGENCE
- DIVINE WISDOM
- PATIENT
- BALANCED HARMONICS
- ORGANIC

GIVING=RECEIVING=EEE

The true nature of Equal Energy Exchange is when there are equal parts giving and receiving. When one is giving from the heart, in service and joy, and one is receiving in gratitude and appreciation, then there is equal energy being exchanged.

If one or both of the energies is not pure, or is imbalanced, it becomes a taking dynamic.

Balanced harmonics is essential for all philanthropists to anchor in, as when we are balanced within, we naturally create balance without.

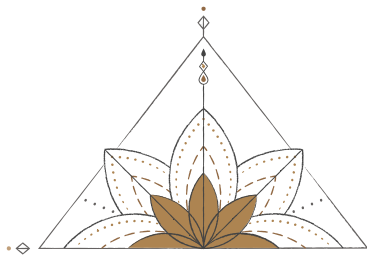

GIVING & RECEIVING IN LOVE

It is essential that all exchanges of giving and receiving are done in LOVE, and not in any lower frequencies, which creates lower energy around the exchange.

This requires high levels of energetic discernment. If we give to someone or something that is not in a vibration of love, we create discord.

We must have divine discernment in knowing what a pure exchange is and what is not..

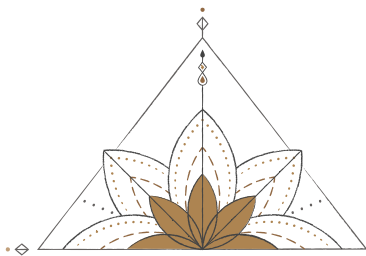

EXCHANGES ARE ORGANIC

We are bringing the organic nature back of the giving and receiving cycle. Mother Nature naturally holds this cycle as do the ecosystems.

There is always a divine timing to giving and receiving and it cannot be forced, calculated, or demanded.

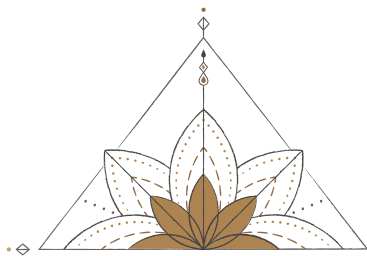

It must be organic and in flow with divine timing. This requires patience and heart centeredness.

DIVINE NON ATTACHMENT

The old paradigm was a taking and hoarding paradigm that was based on lack and attachment.

One would need to take from another in order to receive or would have to "earn" something to receive. This created severe attachment to all things including possessions, people, money and things. Non-attachment allows us to flow within the giving and receiving. All can be let go of because it always returns 10 fold.

ENERGY EXCHANGES

Money is not the only form of exchange, but is the most common.

We are now creating the new paradigm where money simply becomes another tool or modality of energy exchange but is not the sole modality.

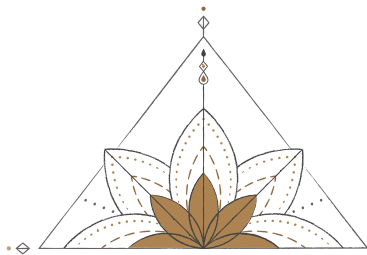

Through this we recognize that giving and receiving means to give and receive what is HIGHEST AND BEST, which can often simply be energy, love, support, gifts, or service as a means of exchange.

BOUNDARIES

Boundaries are essential in the role of Philanthropy, having the divine intelligence to know when to give, when to receive, and what to give and receive.

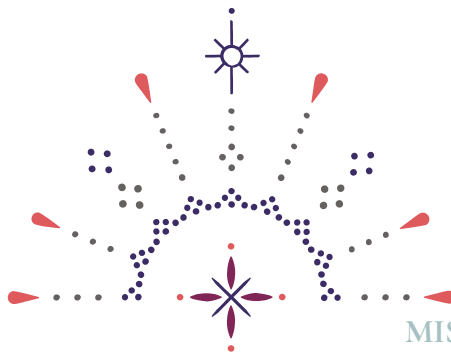

This requires solid energetic boundaries so as not to corrupt the energy of any exchange through guilt, obligation, entitlement, validation, shame, etc.

LEADING BY EXAMPLE

DIVINE TRAITS OF
EQUAL ENERGY:

- INTEGRITY
- TRUTH
- ACCOUNTABILITY
- DEDICATION
- INNER STRENGTH
- VISION
- EMPOWERMENT
- HONOR
- PROACTIVE

LEADING BY BEING

All philanthropists are leaders, as one would not inherit the role if the destiny was not to lead.

Leading by example, by BEing a divine being, we create the greatest impact for Humanity.

Our services to the whole is simply an extension of our grandness. If one is not leading by example, they will not be able to create or give in the highest state. By being the change you wish to see, you are leading others to the path of their highest embodiment.

GREAT POWER=GREAT RESPONSIBILITY

All philanthropists are being gifted great power to enact, change and lead the transition into New Earth. With great power comes great responsibility, and all philanthropists have the highest levels of responsibility. To be the highest version of themselves, to lead by example, and to be in full integrity with their choices.

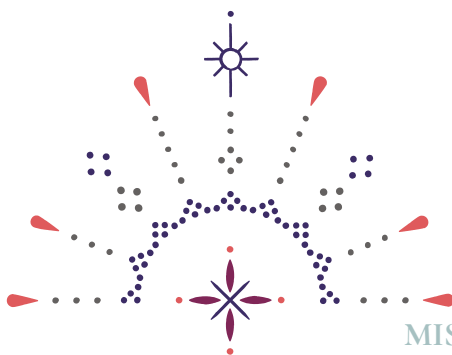

Accountability at the highest levels are required, which means we take accountability for ALL things, in order to heal and transform them.

TRUTH & TRANSPARENCY

All leaders must hold truth and transparency as their core values.

We are examples of divinity which means we speak the highest truths at all times, we are transparent about all that we do, and we take accountability where it is needed.

We show others how to be a true philanthropist-which is to be an example of love.

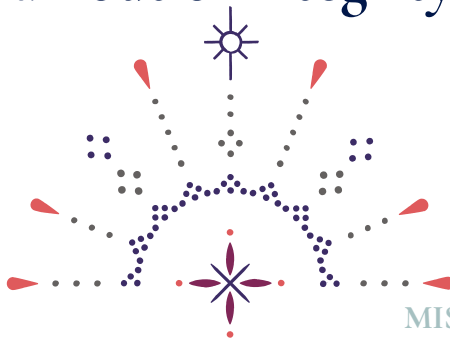

HOLDING THE VISION

As leaders and philanthropists, we are tasked with holding the higher vision of New Earth.

In order to create New Earth, and be in service to the whole, we must have a vision that is pure and aligned with Universal Law and Right Action.

Right action is doing the right thing, in the right amount, at the right time. When we do not have a vision that is pure, and aligned with the highest good of all, we fall out of integrity.

EMPOWERING OTHERS

The old way of leadership are now dissolving, which was to hold power OVER others. True leaders do not seek power, they seek to empower others. This is the key to being a true leader and philanthropist.

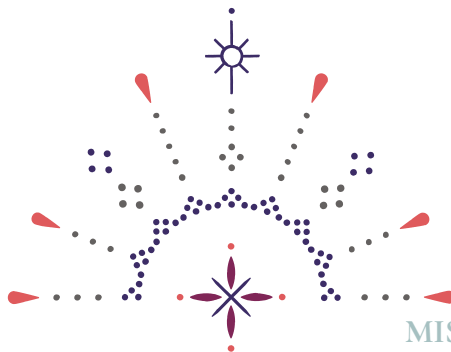

To remember that when we align with our vision, and we are in service to the whole, we are empowering others to rise into their own divinity.

There is no control or domination over others, nor do we seek to tell them what to do. We simply show them the way. This is how we stay in our own empowered state, and not in savior programming.

THE AGE OF INITIATIVE

True leaders take initiative. They do not wait for external approval or fall into complacency or apathy.

By being proactive and taking initiative, we stay in integrity with our purpose and dedication to our vision.

GUIDANCE FOR PHILANTHROPISTS

- SELF- LOVE DISCIPLINES
- DISSOLVING THE EGO
- TRANSFORM LOWER FREQUENCIES
- PRACTICE EQUAL ENERGY EXCHANGE
- BALANCED HARMONICS
- HAVE A VISION
- WRITE DOWN PLANS/STEPS
- TRUST THE PROCESS
- ASK FOR GUIDANCE

SPIRITUAL TOOLS AND DISCIPLINES

As leaders and philanthropists, our main task in this present moment is to prepare for our grand roles. This requires self-love mastery, inner work to dissolve all programming, lower frequencies, and begin embodying the divinity that is required for our roles. Being the example, taking accountability, and staying dedicated to the inner work is essential. Balanced harmonics must be anchored in, which then creates equal energy exchange in our daily lives.

HOLD THE VISION

It is important for each of us in understanding the magnitude of the roles we have, to have a vision of what we wish to give to Humanity. We all hold unique expressions of Source and our ideas and passions will all be different which is by design.

Getting in tune with your passions, skills, & the vision of New Earth that you wish to create, will give you a solid platform to build upon. Write down all the ideas that you wish to create into manifestation in your service to Humanity, as well as any plans or steps to take to bring them into fruition.
